

Do you enjoy:

EDIBLES OVER 200MG PER BAG?

Edibles would be capped at 200mg per package
& 10mg per dose.

**HAVING MORE THAN 5 STRAINS
OF CANNABIS HERE?**

Testing requirements would force many
caregivers to grow only a few strains.

**PAYING THE CURRENT RATES,
NOT MORE, FOR CANNABIS?**

The fees for testing & METRC tracking
would cause prices to go up.

**HAVING LOCAL CANNABIS STORES,
NOT HAVING TO DRIVE FAR TO
GET YOUR WEED?**

Many caregivers' businesses would not financially
survive these changes thus creating less stores.

If you answered **YES TO ANY**
of these questions please
contact your local senator & state
representative & ask them to

OPPOSE LD-1847

By voting ought not to pass on the
Graham Amendment for LD1847
